

CNI provides pigtailed laser diode LD, fiber coupled laser diode, with single mode, multimode, polarization maintain mode fiber.

This Fiber Pigtailed laser diode is precisely aligned in its mount and is compatible with Newport 700 series mounts. It is a 1310nm wavelength unit and comes unused in its factory box with instruction ...

1310nm Pigtailed Diode Laser 1310nm Pigtailed Laser Diode 1310nm DFB Laser Diode Built-in Monitor 9um Fiber Core 10mw output power Isolation Optional 2.0Gb/s Optional Coaxial/Receptacle package

The Fiber Pigtailed Photodiode is a coaxially packaged photoelectrical component. It features high responsivity, low dark current and good temperature performance over a wide wavelength range.

Electrically shorten LD module and store in non-extreme conditions. Suggest using the constant current power supply.

We supply high quality 1310nm SM Pigtailed DFB Laser Diode,we are professional 1310nm SM Pigtailed DFB Laser Diode factory,manufacture,supplier.

The LD-1310-31B Fiber Coupled Laser Diode consists of Fabry-Perot lasers, having a fiber pigtail precisely attached for optimum coupling efficiency. This 1310 nm center wavelength version has a ...
