

Product description SFP Ethernet Fiber Optic Switch, 1000m ...

Mouser is an authorized distributor for many optical switch manufacturers including Broadcom, Omron, onsemi, Sharp Micro, TT Electronics, Vishay & more. Please view our large selection of optical ...

The LuxLink<sup>®</sup> OS-3121 is a fiber optic switch that can be controlled remotely or ...

MOMEX switches are available in 1 x 1, 1 x 2, 2 x 2 (bypass) configurations. Lumentum also designs and manufactures custom switching modules to meet unique customer requirements.

The miniature fiber optic switch connects optical channels by redirecting incoming optical signals into selected output fibers, in 1<sup>×</sup>1, 1<sup>×</sup>2 and 2<sup>×</sup>2 (bypass) configurations. This is achieved using opto ...

It is designed for use in reconfigurable OADM, optical cross-connect system and network switching for fault protection applications. Electronic driver is available for this series of switches. The switch is ...

The optical switch has two configurations: 1<sup>×</sup>2 or 2<sup>×</sup>1. The switch is bi-directional. The optical switch consists of the all fiber optic switch device and corresponding driver packaged in a rack-mountable ...

Product description SFP Ethernet Fiber Optic Switch, 1000m Ethernet Fiber Optic Transceiver, 4 Optical Ports 2 Electrical Ports, 120km, with LED Indicator, Supports 9k Bytes Jumbo ...

The 7707BPX is a wide band 2 x 1 optical protection switch that provides auto-changeover functionality by detecting changes in the optical input power level. The 7707BPX has integrated technology for ...

The LuxLink<sup>®</sup> OS-3121 is a fiber optic switch that can be controlled remotely or through a front panel switch. The optical path through the unit is purely optical; That is, there is no optical to electrical to ...

It will support two optical fibers input and one fiber output with an auto detect switch function. The unit supports a wide operating wavelength range and a quick switching rate.

The NS Ultra-Fast Series (NF) fiber optical switch is based on our patented electro-optical configuration, featuring low optical loss, wide temperature operation, and polarization insensitivity.
