

24-core optical distribution box for smart buildings

FBR-11610 Fiber-Optic Distribution Box, 24-Core is a high quality product by Bud Industries used for electronic enclosure applications.

LW-ODB-24K Fiber Optic Distribution Box integrates fiber cable fixation, storage, splicing, and distribution in an outdoor and indoor wall mounting and outdoor pole mounting box.

Premium-Line FTTH distribution box is aim designed for multi-purpose applications in FTTH projects, the dual layer design supports direct termination, and also FTTH distributions via mini splitter built in, ...

A 24-core optical distribution box is specifically designed to support large-scale fiber networks using mass fusion splicing techniques. This enables efficient termination of multiple fibers simultaneously, ...

The compact FTTx distributor I-CASE FTTH-OUT24 is perfect for connecting buildings with fiber optics and for additional secondary distribution. This housing can be used both as a distribution box in ...

Entry cable and lead-down clamp, optical fiber splicing, fixing, storage, distribution and so on are all integrated. Cables, tail fibers and jumpers all run through their own paths and do not ...

Suited for FTTH engineering cables reaching buildings, it can be installed in corridors, basements, computer rooms and exterior walls. It enables fiber splicing, splitting and distribution while providing ...

This distribution box terminates up to 2 fiber optic cables, offers spaces for splitters and up to 48 fusions, allocates 24 SC adapters and working under both indoor and outdoor environments.

HTB8048B outdoor distribution box offers 24 or 48-core capacity with weatherproof protection, ideal for FTTH/FTTx outdoor termination and cable splicing.

The equipment is used as a termination point for the feeder cable to connect with drop cable in FTTx communication network system. The fiber splicing, splitting, distribution can be done in this box, and ...
