

Explore our comprehensive selection of high-performance fiber optic splitters. We offer a variety of PLC splitter types, including ABS box, LGX cassette, and rack-mount options with multiple split ratios.

1X48 Optical Splitter is a type of optical power management device that is fabricated using Fused Biconical Tape technology. It features small size, high reliability, cheap cost and good channel-to ...

The FDB-48 Series 48-port Fiber Distribution Box is suitable for FTTH projects and can be used in corridors, basements, rooms, and on building exteriors. It has functions like mechanical splicing, ...

Discover optical fiber splitters designed for home theaters and gaming consoles. Aluminum construction for durability.

PPC's Splitter Terminal Box (SFTB) is developed for FTTx applications, and can accommodate up to 48 splices and 24 SC simplex/ LC duplex adapters. SFTB48 is designed to house fiber optical ...

This fiber access termination box(FDB) type can hold up to 48 subscribers. It is used as a termination point for the feeder cable to connect with the drop cable in the FTTx network system.

FDB-48 Series 48 ports Fiber Distribution Box, also called Splitter Distribution Box or Fiber Terminal Box, can be used in FTTH projects and is suitable for corridor, basement, room, and building's outer ...

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

The PLC 1x2 with LCAPC 48-Way Splitter Panel is a high-density optical splitter solution designed for fiber distribution networks, including FTTH, FTTx, PON, and data center applications.

Discover 1:48 optical splitter with SC APC connectors, PLC technology, and CE/ROHS certification for reliable FTTH/FTTX network deployment.

Explore our comprehensive selection of high-performance fiber optic splitters. We ...
