

Product information: IFC optical cable with SC/APC connectors, variant of 4 fibers in one cable and length of 20m.

Universal (external-internal) flat cables are cables to be used in FTTx systems. Light structure with small diameter, high flexibility and drag resistance, dry center, UV resistant LSOH jacket, reinforced with ...

Specialized optical cable dedicated to RESIDENTIAL FTTH solutions, public buildings and industrial FTTx. Universal, internal-external cable design allows transmission lines to be run without ...

Fibertechnic DAC L79304 fiber optic cable for direct underground installation. The cable has a HDPE sheath with high crushing resistance (4000 N) and UV resistance.

Custom Fiber Optic Cables 4J single-mode SC/UPC 30m is a universal optical cable single-mode, amount of 4j fibers, terminated with LC/UCP, cable length 30m Custom Fiber Optic Cables 4J single ...

The cable is available for sale by the meter, which means customers can purchase exactly the length of cable they need for their project. This flexibility in the choice of length allows the purchase to be ...

Opton S-QOTKSdD is a universal drop-fiber cable for indoor and outdoor use. The outer shell (thickness about 0.7 mm) is made of polyurethane, it is resistant to UV radiation and the negative weather ...

Product information: Fibertechnic optic Z-XOTKtcdD 4J Ultra fiber is a universal one tube cable, aerial SPAN 80m or tele-technical canalisation. It is enhanced with fiberglass FRP yarns.

Universal (external-internal), round cables for use in FTTx systems, reinforced with aramid fibers. Lightweight 3mm small diameter design, large flexibility and drag resistance, LSOH UV resistant jacket.
