

We offer a variety of cable tray flat bends available for light, medium, and heavy duty cable tray systems in varying sizes to suit your requirements.

Flat 90° Bend: Enables clean and structured right-angle turns in cable tray systems. Versatile Application: Suitable for use in residential, commercial, and industrial environments.

Calculate horizontal, vertical, or compound cable tray offsets based on bend angle, offset distance, and available installation space. Use this tool to estimate sloped section length, horizontal run ...

Heavy Duty 90 Degree Flat Bend 600mm Galvanised £142.29 ex. VAT - £170.75 inc. VAT  
Heavy Duty 90 Degree Flat Bend 750mm Galvanised £264.50 ex. VAT - £317.40 inc. VAT ...

Calculate the minimum required bend radius by multiplying the cable's outside diameter by its bending factor (e.g., 10x for multicore). Then, select a standard tray fitting (300mm, 450mm, etc.) ...

Guide for making bends, tees, crosses, risers and reducers from straight sections of wire basket cable trays live at the project.

The Ladder Tray features light, rugged, tubular steel construction. It is designed for mechanical support and strain relief in long runs of cable and creates a smooth gradual bend for ...

The 90° bend for 75mm heavy duty cable tray provides a reliable corner joint for tray systems, ensuring smooth directional changes without compromising strength or cable capacity.

The Legrand MRFB75G is a 90° flat bend for 75mm Swift Cable Tray systems. It has a hot dipped galvanised steel finish and has integral coupling tabs. With over 50 distribution warehouses, we offer ...

For cable tray, the default bend radius is set to the width of the cable tray, measured between the inside edges. You can specify a different multiplier ...

Hilti's cordless bandsaw is an appropriate tool for cutting low height, thin metal products such as cable ladders and trays and support channels. Accurate cutting is achieved with low noise ...
