

The AT89C52 provides the following standard features: 8K bytes of Flash, 256 ...

AT89C52 Pinout, Pin Description and Dimensions.

The Atmel AT89C52 is an 8051-based Fully Static 24MHz CMOS controller with 32 I/O Lines, 3 Timers/Counters, 8 Interrupts/2 Priority Levels, UART, Three-Level Program Memory Lock, 8K Bytes ...

The ISSI IS89C52 is a high-performance microcontroller fabricated using high-density CMOS technology. The CMOS IS89C52 is functionally compatible with the industry standard 80C51 ...

The Atmel AT89C52 is an 8051-based Fully Static 24MHz CMOS controller with ...

The AT89C52 provides the following standard features: 8K bytes of Flash, 256 bytes of RAM, 32 I/O lines, three 16-bit timer/counters, a six-vector two-level interrupt architecture, a full-duplex serial port, ...

The 89C51/89C52/89C54/89C58 contain a non-volatile FLASH program memory that is parallel programmable. For devices that are serial programmable (In System Programmable (ISP) with a ...

All three families are Single-Chip 8-bit Microcontrollers manufactured in advanced CMOS process and are derivatives of the 80C51 microcontroller family. All the devices have the same instruction set as ...

This repository contains the completed tasks from the STC89C52 training manual, covering a range of embedded systems concepts and practical applications. Each task folder contains the code, ...

Description: CMOS SINGLE CHIP 8-BIT MICROCONTROLLER with 8-Kbytes of FLASH. Manufacturer: Integrated Silicon Solution, Inc.

The 89C52 parts manufactured by ATMEL are available for purchase at Jotrin Electronics. Here you can find various types and values of electronic parts from the world's leading manufacturers.

By combining a versatile 8-bit CPU AT89C52 with Flash on a monolithic chip, the Atmel AT89C52 is a powerful microcomputer which provides a highly flexible and cost effective solution to many ...

Description: 80C51 8-bit microcontroller family 4K/8K/16K/32K Flash. 4 Results. Datasheet: 226Kb/32P. Manufacturer: NXP Semiconductors.
