

CommScope offers a variety of easy-to-install frames, racks and cabinets specially engineered for network equipment and fiber cable management.

These new fiber optic enclosures allow for easier terminations, greater capacity and uncomplicated cable management. Fabricated from 16 gauge steel to withstand years of adds, moves and changes, ...

Fiber optic cable slack storage also called aerial fiber cable coiling bracket, developed to coil up and store additional length of fiber optic cable, and ensure the cables have a minimum bend radius during ...

Corning OptiSheath<sup>®</sup>; Aerial Terminal, SCA-9T Series is available in two lengths designed for the aerial fiber access network and provides a low-cost solution optimized for optical access architectures. ...

The Moore OptiRack is designed to allow storage of fiber optic cable on the strand. The lightweight aluminum OptiRack ensures that the minimum bend radius is not compromised during installation ...

The plastic racket for cable storage offers the following features: Very light and compact, it perfectly compensates for the weights and minimizes the stress to which the fiber optic cable is subjected in ...

The Solution Space-Tray is an Aerial Cable Management System, principally intended for smaller-bore cables (up to 36mm dia) in Low Voltage Power and Telecoms applications (Phone, Cable TV, Fiber ...

Kits can be customized to include aerial mounting brackets and cable protection options for pole passing. The SLACKLOOP Plastic In-Span Storage is designed to store slack ADSS or lashed ...

Netceed is a global leader and one-stop shop with a comprehensive portfolio of network core to service delivery edge materials, complete end-to-end solutions, and value-added services with unmatched ...

A versatile and complete fiber optic cable mounting set for use on poles, featuring a 60 cm cable spare frame, a 20 cm aluminum spacer, and a universal GPLATE adapter.
