

African Underground Temperature Measurement Optical Cable Factory

Established in 2016, through the partnership of Yangtze Optical Fibre and Cable Joint Stock Limited Company (YOFC) and Mustek Limited (a JSE listed company), YOA Cables has already positioned...

Fibre cable maker Yangtze Optics Africa Cable has opened a R160 million facility -- the biggest optical fibre cable manufacturing plant on the continent -- at the Dube TradePort special economic zone ...

DTSX measures temperature distribution over the length of an optical fiber cable using the fiber itself as the sensing element and it is ideal for temperature monitoring over long distances and wide areas.

This major investment will complete our existing submarine and pan-African terrestrial infrastructures to provide access to international connectivity in a redundant fashion throughout the west coast of Africa.

The fiber follows your installation and gives you the benefit of a continuous temperature profile in place of the more traditional single-point electrical temperature measurement.

Aberdare Cables was established in 1946 and is a leading South African leading cable manufacturer. Aberdare Cables has 3 manufacturing sites in South Africa, with Customer Service Centres in each ...

Established in 1994, Lambda's charter is to provide leading edge test and measurement solutions to the Southern African fibre optics and telecommunications industry at the best possible price/performance ...

This study proposed a sensor module that can monitor the temperature of the power cable joint using a fiber optic sensor. The advantage of using fiber optic sensors is that they are not ...

M-TEC is currently a supplier of optical fibre cables to State Owned Entities in South Africa whilst Namibia, Botswana, Zambia, Ghana, Nigeria and Mozambique is M-TEC's largest export ...
