

Andorra receives fiber optic cable

MILAN -- Prysmian Cables & Systems today announced that its current contract with Andorra Telecom will help the Principality of Andorra to become the first country in the world to ...

We are currently working in the area of Andorra la Vella and Escaldes-Engordany, which has the highest concentration of customers and which is expected to finish by the end of October, to then move onto ...

Fiber connectivity is the backbone of the digital infrastructure in Andorra. Nearly 100% of households and businesses have access to fiber-optic lines, which is significantly higher than the ...

What followed was a commitment to provide internet access via fiber optics as a universal service, for all end users, in any populated place, in any geographical situation in the Andorran territory, at a ...

Thus, the Principality became the first country in the world that switched all copper cable ADSL networks all around the country. Previously in 2012 Andorra became the first country in the ...

Symmetrical fiber optic cables are reaching all homes in the territory regardless of their location, leaving the whole country properly wired. Andorra had 300 Mbps symmetrical fiber Internet access already in ...

Prysmian Cables & Systems (Milan, Italy) announces that its current contract with Andorra Telecom will help the Principality of Andorra become the first country to provide a direct optical fiber link to all ...

This process has had as major milestones the installation of broadband through fiber optics throughout the country, the ADSL extinction and thus culminating in the replacement of copper telephony services.

The combination of 10GPON fiber in homes and 5G in mobility makes Andorra one of the countries with the best connectivity per capita in Europe, especially remarkable given its high mountain terrain.

The Principality has enough capacity to adapt to the growing trend of traffic and fiber optic antennas, making Andorra a benchmark for small European States in the implementation of new ...
