The full name is metal grid cable tray, which is a tray used to support and protect cables and wires, and is an extension of traditional cable trays. The detailed introduction is as follows:

Legrand wire and cable management solutions including wire mesh trays, cable trays, and reels. Discover flexible, adaptable, cost-effective solutions.

The open grid structure promotes natural airflow, reducing cable operating temperatures by 15-20% (tested in industrial settings) while minimizing dust, debris, and contaminants buildup.
