

Automatic stripping and welding of optical cables

For high-volume manufacturing environments, such as the production of fiber-optic patch cables or medical fiber probes, fully automated stripping systems are used.

The FBT-800 is a pneumatic fiber stripping machine specifically designed for ...

The machine consists of three separate units, a cable pay-off units, a cable cutting unit and a cable take up unit. Suitable for remote or armored fiber optical cable cutting, out jacket striping, coiling and ...

Shop our selection of fiber optic stripping machines for efficient cable preparation. Perfect for telecom and datacom applications. Bulk orders and OEM available.

The automatic wire stripper with cutter allows quick and precise removal of insulation from cables. The wide range of diameters handled by the tool allows it to work with different types of cables with ...

Our products ensure efficient, precise fiber preparation, helping enhance fiber optic network performance and reliability.

The FBT-800 is a pneumatic fiber stripping machine specifically designed for buffer, coating stripping of optical fiber cables and ribbon fibers. The compact machine strips lengths from 5 up to 35 mm with ...

Buy the high quality and highly efficient fully automatic optical cable stripping machine with our factory. We are one of the leading manufacturers and suppliers in China, providing you with customized ...

Engineered for efficiency and accuracy, this model integrates both wire stripping and cable jacket splitting functions, making it an ideal solution for manufacturers and technicians working with delicate ...

The Auto Stripper by UCL Swift, is designed to strip various type of fiber optic cables using its heater which adjusts heating time and temperature. The Auto Stripper ensures that customers enjoy stable ...
