

Luna offers a complete line of high performance active and passive fiber optic modules and components for a wide range of fiber optic systems, including interferometric systems for fiber optics sensing, fiber ...

UPM (Universal SFP-Typed Power checker Module) provide very high productivity for power checking work on high density fiber optic systems and devices for FTTH, CWDM-PON and local network ...

XPO represents a new class of optical pluggable module designed specifically for next-generation AI data center fabrics. Each XPO module delivers 12.8Tbps of bandwidth using 64 electrical lanes and ...

The SCALE CPO solution uses both coarse and dense wavelength-division multiplexing (CWDM and DWDM) for bi-directional data transmission over each optical fiber, delivering significant ...

Accelerate your development and focus on your true added value with Optimom(TM), a new range of turnkey image sensor modules, that can be instantly integrated into vision-based systems.

The N1030B is a plug-in module for the DCA-X mainframe that includes two 65 GHz optical channels.

View product information for LXI Optical Switching - 16x16 Matrix Plugin Module.

The left picture below shows the module. The picture on the right shows an optical eye diagram at 32 Gbaud (64 Gbit/s) in a back-to-back test configuration as tested by partners at the Heinrich Hertz ...

MALTA, N.Y., May 4, 2026 - GlobalFoundries (Nasdaq: GFS) (GF) today announced the introduction of its SCALE(TM) optical module solution for co-packaged optics (CPO). GF's SCALE solution, or Silicon ...

Optical transmission/reception functions are implemented in pluggable modules. These optical transceiver modules comply with various international standard specifications at communication ...
