

Our optical modules feature traditional DPO, low-power LRO, LPO, and Active Loopback designs for testing, and support data rates from 10G up to 1.6T across a wide range of package types.

Optcore 2.5G SFP transceivers are an industry-standard small form-factor pluggable module for SONET OC-48, SDH STM-16 (2488 Mbps) applications. These SFP modules comply with the SFP MSA, CE, ...

Find more 509, 50920 and 100001204 products. Enjoy Free Shipping Worldwide! Limited Time Sale Easy Return.

155M-2.5G CSFP BiDi GIGALIGHT's CSFP series optical transceiver modules include two single-fiber bidirectional channels, each supporting data rates from 155Mbps to 2.5Gbps.

Sopto 2.5G SFP module is a series of optical fiber modules designed for use in 2x/1x Fibre Channel and Gigabit Ethernet . They are compliant with the SFP+ MSA. Digital diagnostics functions are available. ...

Saving half fiber by using only one fiber for transmitting and receiving. Hot pluggable SFP MSA compliant. Digital optical monitoring capability for strong diagnostic capabilities. Compliant with IEEE ...

Introduction The SFP-2.5G Series 1-port 2.5 Gigabit Ethernet SFP modules are available as optional accessories for a wide range of Moxa switches.

Silicon photonics allows for greater integration of optical and electrical components on a single chip, leading to more compact and scalable LRO and LPO modules.

FS 2.5G SFP solution with low power consumption provides an ideal connection option for 2.5G Ethernet over Cat5e cable, switch to switch interface, and AP/Router interface.

All optical transceivers are RoHS compliant and could be 100% compatible with branding equipment, such as Cisco, Extreme, Juniper, HP, H3C, Linksys, Huawei, Alcatel-Lucent, Foundry, Nortel, ...
