

Customized Dehumidification Device for Distribution Boxes

Customize Totally Your Dehumidifier: Our production systems provide custom solutions to meet your exact needs. We can personalize the dehumidifier's UI, enclosure, and even the logo.

Efficient semiconductor dehumidifier designed for humidity control inside control cabinets, electrical enclosures, and telecom boxes. Effectively prevents condensation, corrosion, and insulation ...

The small dehumidification device can precipitate water droplets in only tens of seconds in high humidity environment. While reducing the humidity, the relative humidity is further reduced by using the circuit ...

The smart dehumidification device uses semiconductor refrigeration to actively draw humid air from a sealed space into the dehumidification duct under the action of a fan.

For optimal humidity and temperature control, a packaged, custom built dehumidification system complete with cooling, filtration, face and bypass control at the dehumidifier and integration of ...

The intelligent dehumidification device adopts the semiconductor refrigeration dehumidification method. It actively sucks the humid air in the enclosed space into the dehumidification duct under the action ...

Ready for a customized dehumidification plan? Ready for a customized dehumidification plan? We would love to talk with you and understand your situation. We can work with you and your ...

Innovative Air Technologies" customizable desiccant dehumidifiers effectively control moisture levels in a variety of spaces, preventing rust, mold, and mildew.

Customized mini intelligent dehumidifier for electrical cabinets, industrial distribution boxes, and semiconductor equipment. Keep your devices dry and protected.

Sell Intelligent dehumidification device for power distribution cabinet intelligent Drainage type dehumidifier model CS001/SYZ-C2000B. Working power supply: AC/DC85-265V, power 20W.
