

54-Port 10G/40G Enterprise Aggregation Switch DXS-5000-54S Product Status (Revision A): End of Sale

The RUCKUS ICX 7450 delivers unprecedented scale-out density with enterprise-class availability. With SDN support, a service module for IPsec VPN, and 40 GbE ports for uplinks all in a ...

The NSS5810 series switch also support M-LAG, aggregating links of multiple switches to ensure link backup and uninterrupted services during upgrade.

Highly flexible, the QFX5100 can be deployed in mixed 1GbE, 10GbE, and 40GbE environments within Juniper Virtual Chassis architectures, as well as within industry-standard architectures such as spine ...

The HPE Aruba Networking CX 8100 Switch Series offers a flexible and innovative approach to addressing the application, security, and scalability demands of the mobile, cloud, and IoT era.

The VSP 7400 can handle a variety of high bandwidth applications, including high-density 10Gb, emerging 25Gb, as well as 40Gb and 100Gb core/aggregation and spine/ leaf fabric deployments.

Discover the role of aggregation switches. Explore differences between aggregation, access, and core switches, and choose the right model for your network.

The basic initial configuration of the MS425 is just as simple as any other model of MS switch. The links below provide additional information and instructions relating to each step in getting the device setup ...

Suitable for SME network core and large-scale network aggregation, 20 x 10GE ports and 4 x 25GE ports for flexible access, 2 x 40GE ports for high-performance uplink. The VSU connects to ...

Catalyst 9400 Series switches provide unparalleled investment protection with a chassis architecture that supports up to 9 Tbps of system bandwidth and unmatched power delivery with high ...
