

Submit Get in Touch sales@hyperphotonix Products PAM 4 and NRZ Optical Transceivers Coherent Transceiver AOC Assemblies

In the past few years, 100G short-range optical modules based on NRZ direct probing have made a big splash, carrying most of the fast-growing traffic for cloud services.

The QSFP-100G-B20U4-I and QSFP-100G-B20D4-I transceivers operate in the O-band where fiber optic dispersion is minimal and use traditional low-power NRZ (nonreturn to zero) ...

YXF-CWDM-100G-Q28 CWDM QSFP28 optical transceiver is designed for 100GBASE OTN applications. It enables transmission distances up to 40km over single-mode fiber (SMF) via a duplex ...

The ModBox-850nm-NRZ series is a family of Reference Transmitters that generate excellent quality NRZ optical data streams up to 28 Gb/s, 44 Gb/s, 50 Gb/s at 850 nm.

The ModBox-1310nm-1550nm-NRZ series provides R& D and Production engineers with a user friendly turn-key instrument delivering state of the art performance. It is being used in optical ...

The Optical Reference Transmitter ModBox is a flexible and efficient Electrical to Optical converter. The ModBox can be optimized to generate linear or digital standard telecom modulation schemes such ...

Thorlabs" all-in-one digital reference transmitters are based on proven lithium niobate (LiNbO₃) modulator technology driven by high-fidelity RF amplifiers. They are designed for high-speed fiber ...

The 1550nm direct modulated AGC optical transmitter offers a cost-effective solution delivering balanced high output power performance for your analog & digital CATV networks.

And non-drifting feature of InP MZM guarantees the performances of NRZ transmission over long term. The compact size and low cost makes it ideal for NRZ transmission or stress test up to 40Gbps.
