

They lower your labor costs by reducing installation and troubleshooting time. Our distribution boxes require less space, look neater and more organized, and keep cable replacement simple in areas ...

Single-wire connectivity in machines and installations is troublesome and error-prone. Murrelektronik's passive distribution boxes provide a much more convenient method for connecting sensors and ...

Built with robust housings for reliable dustproof and waterproof protection, these distribution boxes ensure dependable performance in demanding industrial environments.

Our IO distribution systems offer a powerful and reliable solution for the structured distribution of input and output signals in modern automation environments.

Passive I / O distribution box with fixed, plug master cable or M12 or M8 connector trunk cable, for easy connection of PNP/NPN-sensors and actuators.

Passive distribution boxes provide structured and reliable distribution of digital signals within industrial automation systems. You use a passive distribution box to centrally connect multiple sensors and ...

Browse our full range of M12 distribution boxes today and benefit from durable designs, reliable connections, and worldwide certifications. Shop now to improve your machine's efficiency and reduce ...

For building owners, architects, construction managers, facilities engineers, and network administrators alike, ACS modular zone distribution systems are the intelligent choice. choice. Zone wiring is ...

Save space, time and money in the field with our easy to install passive actuator/sensor distribution boxes available with M12 & M8 I/O ports.

The Lumberg Automation I/O systems portfolio offers a variety of solutions to meet your needs, ranging from passive distribution boxes, fieldbus and modular I/O systems to high-performance modules.
