

Eastern European ST Fiber Optic Attenuator

Briticom(TM) Fibre Optic Attenuators - ST are used for the reduction of power level in an optical signal - either in an optical fibre or in free space. The basic types that we sell are fixed, step-wise variable ...

ST fiber optic attenuator is used with ST connections. ST fiber optic attenuators are capable of withstanding over 1W of high power light exposure for extended periods of time, making them well ...

DIAMOND SA"s in-line fixed fiber optic attenuators offer stable, wavelength-independent attenuation for telecom applications. Compatible with E-2000®, F-3000®, SC, FC, ST(TM), and Diamond connectors, ...

Fiber optic Attenuators are used in applications where a pre-determined amount of light loss is specified. We offer LC, FC, SC, ST, MU fixed attenuator with different attenuation level, from 1dB to ...

The fiber-optic attenuator kit (SEL part number 91560) adds a spacer on the transmit side of the ST connectors. This pushes the fiber away from the transmitted light and reduces the transmit power by ...

Shop DigiKey"s large in-stock selection of Fiber Optic Attenuators. View inventory, pricing and order now for same day shipping!

Buy customised ST fixed SM/MM fibre optic attenuator male-female from reliable ...

Buy customised ST fixed SM/MM fibre optic attenuator male-female from reliable fibre optics supplier - FS , same-day shipping.

ST 10dB Bulkhead Fibre optic attenuator, 1310nm, Female-to-Female. Enabling fixed level of attenuation to be obtained by replacing the existing fibre optic bulkhead adapter at the fibre patch panel with this ...

Our male-to-female buildout optical attenuation (Pads) are available across all fiber modes, featuring LC, LC/APC, SC, SC/APC, FC, FC/APC, and ST connector types. Our in-line attenuator is customized to ...
