

The FPM-600 is a very powerful tool for the most demanding applications such as high-speed DWDM or CWDM network qualification. Size (H x W x D) 190 mm x 100 mm x 55 mm (7 &#189; in ...

Power meter with Bluetooth connectivity, a wide touchscreen and best-in-class optical performances.

The highly versatile FPM-600 Power Meter is the ideal tool for link and system qualification. Thanks to its memory capacity of 1000 data items and converter software, it facilitates data management and ...

The highly versatile EXFO FPM-602X Power Meter is the ideal tool for link and system qualification. Thanks to its memory capacity of 1000 data items and converter software, the FPM-602X facilitates ...

The Exfo FPM-602 is an 800nm fiber optic optical power meter designed for accurate measurement of optical power in fiber optic systems. It is ideal for testing and troubleshooting optical networks, ...

The EXFO FPM-602X-FOA-54 Optical Power Meter with high-power GeX detector features a power range of -26 to -55dBm and high power measurement capability of 26dBm. It also offers data storage ...

Offers a memory capacity of 1000 data items and converter software, for easy data management and USB transfer to a PC. Comes with more than 40 calibrated wavelengths. Includes an FOA-54B SC ...

With more than 40 calibrated wavelengths, including all CWDM wavelengths, it allows for user-defined measurement wavelengths, using the interpolation method between calibrated points. Use its Hold ...

Like all EXFO portable instruments, the FPM-600 is built for top ruggedness and versatility, perfect for the harshest test conditions. It features a keypad/LCD backlight, for easy operation in darker ...
