

Upgrade your network performance with our professional-grade Fiber Optic Connectors. Featuring high-precision Zirconia Ceramic ferrules for minimal signal loss, our selection includes industry-standard ...

These fiber optic pigtail connectors are compliant to IEC, TIA/EIA, NTT and JIS specifications. The FC connector is a one piece construction and push pull off design.

JIS, IEC standard compliant and intermateability test certified. Comply with IEC 61754-13 and JIS C 5970(type F01). FC intermate test by NTT certified connector. Available with PC polishing, advanced ...

These flanges enable conversion between fiber optics and standard SM1 threaded components. It can achieve conversion between fiber optics and standard SM1 threaded components, and can be used ...

SQS fiber optic feedthroughs ensure vacuum compatibility by sealing SM, MM, and PM fibers into standard (CF, KF, ISO) or custom flanges, typically made from 304L or 316L stainless steel. Fibers ...

This series of FC pigtail Assemblies are available in UPC, APC polish with simplex or duplex fiber optic cable versions. Cable length, cable diameter, and jacket are optional.

Threaded FC/PC connectors are designed for high-vibration environments. The "PC" stands for "physical contact" because these connectors allow the surfaces of two connected fibers to be in ...

FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards.

Hubbell fiber optic pigtails are manufactured with high quality connectors, factory polished for low insertion loss and low back reflection. Pigtails are available in LC, SC, FC and ST style versions with ...

In the following article, we will discuss in detail the characteristics and applications of various types of fiber pigtails to help you choose the right pigtail for your fiber optic network.
