

Fiber Optic Cutter is utilized to cut the aramid yarn of the fiber optic cable to prepare it for fusion splicing or direct termination with a fiber optic connector.

Solutions for cutting and stripping fiber optic cables. The Fiber Optic Scribes feature a 30° single bevel - DualScribe(TM) reversible blade that doubles the life of the tool.

Lightweight and compact, these optical fiber cable & wire cutters have a full-serrated edge for consistent, fast and clean cuts. Our cutters are with lowest price and worldwide delivery.

Precision cutting is critical in fiber optic work, and our tools are built to excel under pressure. Our fiber optic cutting tools are engineered for clean, effortless cuts, reducing installation time and protecting ...

Price and other details may vary based on product size and color. Fiber optical thermal stripper M9 is suitable for 1-48 cores, compatible bare fiber/bundle and ribbon fibers, Dual heating mode and 8-level ...

Achieve clean, precise cuts with our high-precision fiber optic cleavers. Essential tools for fusion splicing and mechanical splicing, ensuring low-loss connections.

Achieve fast, clean cuts on optical fiber cables with the weunion Fiber Cable Cutter - a high-performance tool designed for precision and efficiency in FTTH, telecom, and data center installations.

Choose from our selection of fiber-optic cable cutters, including sawing, cutting, and scraping, fiber-optic tool kits, and more. Same and Next Day Delivery.

When you're working with fiber optic cables, you need the right cutting tool to avoid costly mistakes. You'll find that different models handle various cable types--from hardline coax to armored ...

Finding the right fiber optic cable cutter is essential for clean terminations, reduced waste, and reliable splicing results. This guide highlights five top cutters and related tools designed for field technicians, ...
