

Fabpro Polymers offers a full line of polypropylene cable fillers for a wide range of cable designs and applications. Fabpro manufactures fillers in monofilament and slit film construction.

The filler rod comprises an elongated rod extruded from a polypropylene homopolymer, a polypropylene-polyethylene copolymer (i-PP) resin material, or preferably, from a...

Developed to meet strict military, transportation, and energy industry needs, FR SUPERBULK and ZHFR SUPERBULK can be used alone or in combination with other materials to provide cost ...

Superbulk[®] are polypropylene cable fillers that has a lightweight, lower-cost, highly adaptable alternative to legacy materials.

In fiber optic and data transmission cables, polypropylene fillers ensure structural integrity and protect delicate optical fibers from mechanical stress, bending, and environmental damage.

For 50+ years, electrical cable industry businesses across North America have trusted Guelph Twines for a complete line of high-quality polypropylene, paper, and flame-retardant cable fillers ...

Our fillers are manufactured from either paper or polypropylene to offer the best solution for your application. We offer a multitude of diameters and packaging options to accompany your ...

Filling materials are employed to occupy the internal space of the cable, providing protection and structural support to the optical fibers. PP (Polypropylene) filling ropes are commonly used as filling ...

Our durable polypropylene (PP) cable fillers and armoring yarns deliver essential protection by enhancing mechanical strength, maintaining cable integrity, and resisting ...

The filler rods fill the space that would normally be occupied by a buffer tube containing optical fibers so as to keep the structure of the cable intact. For ...

When it comes to manufacturing the best cable fillers, Kalyani Polymers stands at the forefront of innovation and quality. We specialize in producing polypropylene yarn fillers that deliver exceptional ...
