

Discover a wide range of reliable fiber optic splitters. Our PLC and FBT splitters offer low loss and various split ratios for FTTH, PON, and CATV networks.

This guide demystifies fiber optic splitters, explaining their design, operating principles, types, key specifications, and real-world applications. Whether you're a network engineer designing a ...

FS provides Splitters & Closures, free & fast delivery, expert tech support, outstanding warranties.

Clearfield leads the way with optical component technologies for PON splitting, C/W division multiplexing and optical circulators. These products are custom built to your unique split ratios, light requirements ...

Fiber optic splitters include PLC type fiber optic splitters and FBT type fiber optic splitters. Available in single mode and multimode with 900&#181;m loose tube fiber or 250&#181;m bare fiber connectorless or any ...

Our SM and double-clad fiber coupler offerings also include a selection of components ideal for OCT applications.

Check each product page for other buying options. Need help?

Explore our collection of optical cable splitters and PON splitters for sale. Optical beam splitters are used to split the fiber optic light evenly into several parts at specific ratios. Buy optical splitters and passive ...

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

Fiber optic splitters are critical components in today's fiber networks. They're commonly used to connect a central office to terminal equipment and, eventually, to end users in FTTX applications.
