

US Conec designs and manufactures a full suite of industry leading connector embodiment packages based on standardized and custom optical interconnect ferrules.

Answers to your most pressing interconnect questions. Search a comprehensive database of resources, including technical papers, best practices, tips, FAQs, and more.

Within our factory, we operate first-class equipment and have an expert manufacturing history of nearly 2 decades, allowing us to provide top of the line fiber optic cables, fiber connectors, fiber optic ...

Century Fiber Optics offers a variety of rack mounted fiber enclosures that provide economical solutions for installations and offer a secure location to store splices, adapters, fibers, and optical components.

Developed by Lightera Labs, the 400A interface unit is a modular enclosure that provides cross-connect and interconnect capabilities for splicing and terminating Outside Plant Cables (OSP) or Fiber Optic ...

Designed to perform in the harshest installation and operating environments such as aerospace, defense and industrial applications, CarlisleIT's fiber optic assemblies offer unmatched performance ...

FIBER OPTIC COMPONENTS | LIU FIXED 1U / 2U or splicing applications in LANs at a premise location. The LIU (optical fiber interconnecting unit) is modular and suitable for optical cable ...

Our total supplying ability, from Fibers to Connectors, could enable your high-speed, high-density and flexible optical interconnect.

The LIU (optical fiber interconnecting unit) is modular and suitable for optical cable installation, bare fibers splicing & protection, pigtails storage & management. The number of fibers determines which ...

Smiths Interconnect offers both multimode and single-mode fiber optic contacts. Both types consist of two basic components: the core and the cladding, which traps the light in the core.
