

If you are looking for the best quality medium and small-sized pay-out machinery, you've come to the right place. We have years of expertise is the only distributor that can be build custom solutions per ...

We specialize in cutting-edge cable testing and winding machines, supported by our advanced production workshop and assembly line. We warmly invite customers for immersive video or in ...

The high-precision solution for the automated unwinding, winding and rewinding of a wide variety of coil shapes, round and flat wires, foils, tapes and fibers. Automatically traversing bobbin with opposing ...

TEC offers a range of pay-offs and takeups that support any application in cable production. With a variety of ranges and options, TEC delivers consistent production solutions.

Nextrom is the leading global supplier of production technologies for optical fibers and fiber optic cables. We provide solutions and equipment for optical glass making, fiber drawing, fiber coating, ribbon ...

This pay-off and take-up system is specifically designed to cater to various cable production processes, including cable extrusion, cable stranding, cable armoring, cable rewinding, and more.

Our pay-offs are easy to integrate in any new or existing production line and can be operated individual or by line control. This makes Roblon Multi Pay-offs optimal for handling of various fiber optic cable ...

The high-precision solution for the automated unwinding, winding and rewinding of a wide variety of coil shapes, round and flat wires, foils, tapes and fibers. ...

Pay-off Stand is an auxiliary device used to support and unwind coiled materials such as wires, cables, steel wires, optical fibers, etc. It is widely used in industries including wire and cable, construction, ...

We specialize in cutting-edge cable testing and winding machines, ...

Improved Production: Contributes to smoother and more reliable continuous production processes. **Enhanced Safety:** Safety features minimize risks associated with handling heavy reels. ...

With precise tension control and high linear speed this pay off systems is specifically suited to support the production of a variety of fiber optic cable configurations at the highest quality standards.
