

Fiber optic terminal box 4-port small size

This kind of fiber optic junction box with sufficient impact strength is fixed and easy to install in different applications. The snap-on cover design greatly reduces the difficulty of installation, 4 screws can be ...

This kind of fiber optic junction box with sufficient impact strength is ...

small size, light weight, high capacity, easy to installation; Industry Standard User Interface, be made of high impact plastic; UV resistant and weather proof; Up to 4 drop cable; 1 inlet port (for cables with ...

The optical network terminal box is constructed from a lightweight and strong ABS housing. It features a compact design with a sliding removable lid for easy access during installation.

FTB-04 is an indoor terminal box called FTTX faceplate or FTTH terminal box, applied in the FTTX network to connect the drop cable and ONU devices through the fiber port.

Techlogiks fiber terminal box can be applied in the straight through and branch connection of indoor optical cables, available for the distribution connection of various optical fiber systems, fit for wall ...

Indoor/outdoor FTTH fiber termination for residential buildings, villas, and small commercial units. Ideal for the distribution and termination of optical fiber in wall-mounted settings. ...

The 100*80*29mm small 4 port indoor fiber termination box is designed to connect optical fiber cable with 4 pigtailed in FTTH, FTTB, FTTD application.

Compact wall-mounted fiber box with 4 blank ports and 2 splice trays. Ideal for organizing and protecting fiber splices in small installations.

The FOO is simple in design yet offers sufficient work space and fiber management - the box is engineered with all fiber routing supporting the minimum bend radius philosophy to ensure signal ...
