

When working with optical fiber, you don't want your work to be compromised by accidentally damaging a fiber. The Fiber Optic Micro-Strip Tool Kit provides an easy and efficient way to strip fiber optic ...

Fiber strippers and other fiber optic stripping tools with which you prepare your fibers for splicing. Thermal strippers with adjustable temperature and time settings. Automatic fiber stripping units for ...

Jonard Tools manufactures a large range of fiber optic stripping tools specifically designed for technicians in the fiber optics industry. Jonard Tools is committed to manufacturing our products with ...

A fiber stripper is a precision tool used to remove the protective polymer fiber coatings from an optical fiber. This process exposes the bare glass without scratching or nicking it, which is required for tasks ...

This battery-powered, handheld stripper features an integral heating element that enables it to soften and strip optical fiber coating quickly and easily with little to no effort by the user. The Precision Strip ...

Choose from our selection of fiber-optic strippers in a wide range of styles and sizes. Same and Next Day Delivery.

3SAE Technologies is a leading designer and manufacturer of high-performance fiber optic strippers and fiber stripping tools. Our cutting-edge fiber stripping equipment is specifically designed for fiber optic ...

What is an Optical Fiber Stripper and Why Is It Essential? At its core, an optical fiber stripper is a specialized tool engineered to precisely remove the protective polymer coatings from an ...

These fiber buffer stripping tools provide a quick, easy, and reliable way to remove the buffer from an optical fiber in preparation for connectorization. A fiber guide and matched blades ensure that the ...
