

The single mode laser diode has a perfect beam quality and comes ...

The single mode laser diode has a perfect beam quality and comes in an ultra-compact TO38 housing. An operating temperature of $-10\text{ }^{\circ}\text{C}$ to $+70\text{ }^{\circ}\text{C}$ makes it possible to use this laser ...

These high power 450nm laser diodes offer output power up to 20W (CW). They are offered in a 2-pin high reliability fiber-coupled package. They come standard with a 105 micron multimode fiber output ...

Browse 450nm blue laser options including line modules, crosshair lasers, and engraver heads. Perfect for wood and fabric cutting.

Violet and Blue Alignment Laser Diodes are ideal for alignment and sensing applications. Available with output power options ranging from 1 to 100mW, these lasers are commonly integrated into visual ...

The LWPRO-450-20 is a professional medium-power semi-conductor blue laser module that provides stable continuous light output of 20mW at an emission wavelength of 450nm.

Standard singlemode or multimode laser diodes are offered as stock items or associated with a CW or pulsed open-frame or turn-key laser diode driver.

This is a multimode fiber-coupled high-power blue diode with more than 600 mW output power. 450 nm laser diode module is an excellent choice for flow cytometry, fluorescence, and biomedical ...

The warranty period of laser module is one year. If you have any quality problem (Except individual situation like using the laser module more than 30 minutes per time and cause the damage), please ...

Laser Module 450nm - Laser Diode from Achray Photonics. Get product specifications, Download the Datasheet, Request a Quote and get pricing for Laser Module 450nm on GoPhotonics.

Turn-key integrated laser diode module for 7W to 20W multimode 450nm laser diodes. All AeroDIODE products are controlled using any windows laptop. This option adds an additional touch screen to ...
