

We produce molded and mittered fitting as well as cable tray & ladder and many more products. Benefit of fiberglass product are corrosion resistance, light weight and durable, cost effective maintenance, ...

Tested for ABS, NEMA and IEC, B-Line series fiberglass cable tray is ideal for harsh, marine and caustic environments. Learn about its corrosion resistant properties.

We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and ...

Our Fiberglass tray weighs 1/3 that of steel trays and is pound for pound stronger. This makes the tray easy to install, reduces the possibility of lifting accidents, and lowers transportation costs.

Besides, FRP channel cable tray and FRP ladder type cable tray are also available with cover. For further security, covers are used where cable protection is required or desired.

Made from the highest quality pultruded materials, our Fiber Reinforced Polymer (FRP) cable tray is extremely durable and resistant to chemical attack, with a proven record of performance in the most ...

The table above compares the thermal contraction and expansion based on various differentials for steel, aluminum and fiberglass cable trays. The values shown represent the length of the cable trays ...

Unlike traditional steel trays, FRP cable trays do not rust or corrode, require no grounding, and have excellent fire and UV resistance for long, maintenance-free service.

SFSP-INTECH Fiberglass Reinforced Plastic Cable Management System is designed, manufactured, and tested to be installed in most harsh environmental conditions of onshore and offshore facilities ...

Distributor of cabletrays made from aluminum, steel, stainless steel, and fiberglass reinforced plastic (FRP) materials. Offered with power or epoxy coated, zinc plated, and dip ...
