

Fireproof high-voltage fire protection cable trays

Kem Safe CES is a proven solution for the protection of low, medium and high voltage cables in the building and construction industry, and a tested solution to the requirements of BS 8519:2020.

Explore the importance of fire-resistant cable trays in high-risk environments. Learn about the best materials and practices to ensure maximum safety and performance in fire-sensitive areas.

With our fire protection for cable systems, we ensure that your lines meet the highest safety standards and are reliably protected in the event of an emergency.

The Daken Fire-Resistant Cable Tray (DFCT) is a new-generation cable protection system that integrates fire resistance, structural load-bearing capacity, and ventilation into one single solution.

Choose appropriate fire protection materials, such as fire-rated board, firestop packs, firestop mastic, or fire-resistant mineral wool. Firestop packs ...

Fire resistant cable trays are cable trays with fire-resistant boards as the core protective layer. They primarily utilize the heat insulation and flame-retardant properties of the fire-resistant boards to ...

Choose appropriate fire protection materials, such as fire-rated board, firestop packs, firestop mastic, or fire-resistant mineral wool. Firestop packs should be placed in an orderly sequence.

Cable trays are intended for the construction of fire-resistant cable paths with surface cable laying. Cable paths are constructed as standard or lightweight cable paths.

Explore the importance of fire-resistant cable trays in high-risk environments. Learn about the best materials and practices to ...

Our 4-hour fire rated cable encasements provide comprehensive fire and blast protection, shielding cables from fire and containing high voltage cable fires

Boost your electrical needs with our Fire Rated Cable Trays that are tested for fire resistance under real-world conditions. Designed to perform even with cables installed and connected.

FireResistant Solutions provides cable tray covering and fire-protection systems designed to safeguard electrical and data infrastructure in commercial and multifamily buildings.

Fireproof high-voltage fire protection cable trays

Its innovative two-part design installs easily around non-compliant cable tray penetrations, rapidly restoring fire resistance. Ideal for retrofit environments, the EZ Path Cable Tray Retrofit Device ...
