

Free quote for PAM4 high-speed DAC cable

The NSComm 400G PAM4 QSFP-DD to QSFP-DD Direct Attach Copper Cable (DAC) is a cost-effective, ultra-low latency solution for 400 Gigabit Ethernet short-reach interconnects in hyperscale ...

FS DAC, AOC and AEC cables are most used in data centers and enterprise networks for switches, servers, and storage interconnects within a rack. With high ...

The T1-DAC-400G QSFP DD copper direct-attach cable is suitable for very short distances (up to 3m) and are used as a cost-effective solution for establishing a 400Gbps link between QSFP ports.

Designed to support aggregate data rates up to 400 Gbps, this cable ensures rapid and efficient data transfer, essential for bandwidth-intensive applications.

Free repair and replacement are available under warranty. By understanding your business and your needs, we will provide proper advice as fast as possible. Innoptical provides high-performance 400G ...

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

3M(TM) 9V4 series 400G QSFP-DD direct-attach copper cable assemblies are passive copper cable assemblies are foldable and bendable with minimal performance impact.

The GIGALIGHT 400G QSFP-DD pluggable direct attach copper (DAC) cable is available in both Active Copper Cables (ACC) and Passive Copper Cables (PCC) supports 400G Ethernet and InfiniBand ...

High-speed I/O passive cable assemblies that can deliver data rates as high as 400 Gbps with a variety of lengths or customized options for greater design flexibility.

USource QSFP-DD passive copper cable assembly feature eight differential copper pairs, providing four data transmission channels at speeds up to 56Gbps (PAM4) per channel, and meets 400G Ethernet ...
