

House your entire edge computing infrastructure in a single secure, prefabricated micro data center cabinet with self-contained cooling, monitoring, & more.

Designed for critical environments, Atlantic Power's Micro Data Centers offer preconfigured modular infrastructure for edge computing, 5G telecommunications, and compact server rooms.

Modular, secure LightCube edge data centers by Lightpath - scalable Class-A space with up to 864-fiber capacity, power, and security for edge compute workloads.

Resilient, secure edge data centre infrastructure built for mission-critical, latency-sensitive workloads. Your hardware, powered by our enterprise-grade edge facilities.

Our micro data center model series caters to controlled, semi-controlled, and uncontrolled environments and can be deployed with three flexible management options, including monitoring and dispatch for ...

Need a server-in-a-box? NPod offers modular data center and edge computing solutions. Secure, scalable, fast deployment. Contact us today!

EdgeReady micro data centers are expertly configured solutions that are fully customizable for diverse edge deployment strategies and feature 3-5 day order to shipment.

Edge data center solutions from Vertiv offer the fastest path to scale Edge capacity. They are proven to accelerate deployment while driving end-to-end simplicity and reduce risk of hidden costs and project ...

We offer data speeds up to 100 Gbp/s or as low as 100 Mbp/s to fit your network needs and budget. Tower sites typically have multiple fiber providers and wireless carriers available. Maintenance and ...

If you are looking for colocation, cloud, connectivity or other services in Ubiquity Edge Data Center, other data centers in Statesboro or operated by Ubiquity, please try our free quote service or reach out for ...
