

200G-FR4-Open Eye modules comply with the requirements of this document and have the following common features: one optical transmitter; one optical receiver with signal detect and a duplex optical ...

Active Optical Cable Active Optical Cable (AOC) 100G QSFP28 AOC Transmission distance : 1 to 100m
200G QSFP56 AOC

Use Juniper's portfolio of 2 x 100G optical transceivers to service point-to-point 200G interconnections or breakout to interoperate with widely deployed legacy four-wavelength 100G interfaces. Our 2 x 100G ...

200G QSFP-DD/QSFP56 optical transceiver is a high-speed network transmission device designed for 200G Ethernet interconnection. It uses PAM4 modulation technology and can achieve transmission ...

The optical amplifier module developed by GIGALIGHT is designed for long-distance transmission systems in digital optical fiber communication. It is specifically designed to work in conjunction with ...

Broadex Technologies' high performance and cost effective 200G Optical Transceiver Modules are built utilizing our innovative COB technology in a QSFP56 form factor. Designed for use in next ...

Boost network performance with 200G optical transceivers. Designed for data centers, 5G, and cloud infrastructure, our QSFP56 modules deliver low latency, high reliability, and seamless compatibility.

FiberStamp's 200G QSFP56 Active Optical Cables 200GE QSFP56 Optical Transceiver modules are designed for use in 200 Gigabit Ethernet links over OM3/OM4/OM5 multimode fiber. They are ...

Fiberon provides hyperscale data centers with a series of 200G QSFP56 pluggable optical transceiver modules based on 50G PAM4 technologies. These modules can cover the interconnection links ...

Each module is optimized for different media and reach (ranging from 0.5 meters to 80 kilometers). All interface speeds, from 1G to 400GE have connectivity options that include Direct Attach copper ...
