

The SFP28 transceiver provides 25GBase-BX throughput up to 10km over single mode fiber (SMF) using a wavelength of 1270nm-TX/1330nm-RX via an LC simplex connector. This bidirectional unit ...

25G SFP28 BiDi optical transceivers enabling bidirectional transmission over duplex fiber for efficient data center deployment.

Maximize single fiber value with bidirectional (1270nm/1310nm) SFP28 25G signals. Extended signal reach of up to 40km is perfect for use in 5G wireless radio heads

By enabling bidirectional transmission over a single fiber, this module enhances fiber utilization efficiency and can reduce fiber installation costs and fiber rental costs. We offer a diverse range of options that ...

These transceivers are engineered for bi-directional 25G serial optical data communication, utilizing 1270nm/1330nm or 1270nm/1310nm wavelengths. They are ideal for 25G Ethernet and CPRI ...

Provides high-speed data transmission at 25Gbps. Bidirectional connection via single LC receptacle. Signal integrity with internal CDR on transmitter and receiver channels. The single 3.3V power is ...

Featuring low power consumption, high speed, this 25G transceiver is ideal for ...

This series of products uses a single single-mode optical fiber for transmission, the center wavelength is 1270nm/1330nm, the distance can reach up to 10km or ...

Teroline single fiber bidirectional SFP module for Gigabit Ethernet applications over single mode optical fiber. The module can be used with any network device that accepts standard MSA transceivers - ...

The 25G BiDi SFP28 module is a game-changer for deploying a 25G Ethernet network by delivering high-speed Ethernet through one fiber using bidirectional transmission of data.

This series of products uses a single single-mode optical fiber for transmission, the center wavelength is 1270nm/1330nm, the distance can reach up to 10km or 30km, and it supports industrial-grade ...

The SFP28 transceiver provides 25GBase-BX throughput up to 10km over single ...

Double Your Capacity with Single-Fiber 25G Technology Compufox's BiDi (Bi-Directional) SFP28 transceivers are the ultimate solution for high-density 25G Ethernet environments where fiber ...
