

TP-Link 5 Port Gigabit PoE Switch | 4 PoE+ Port @65W | Easy Smart | Plug & Play | Limited Lifetime Protection | Shielded Ports | Support QoS, Vlan, IGMP and Link Aggregation (TL-SG105PE)

Based on Advanced security features and advanced quality of service (QoS), it can be used as a core distribution or access layer switch with high port density, and easy to manage.

Built with a durable metal enclosure and advanced switching architecture, the Aggregation Switch supports multiple Gigabit and 10G SFP uplinks for flexible deployment. Managed models feature ...

H3C FS5500V2-EI series switches provide enhanced ACL control logic, support large-capacity ingress and egress port ACLs, and support VLAN-based ACL delivery, which simplifies the user ...

DH-PFS5936-24GF8GT4XF is an optical fiber aggregation switch with 24 fiber ports, and located in central machine room. It can be connected to access switch with Gigabit fiber ports, and to core ...

The GWN7830 series are Layer 3 aggregation switches that allow enterprises to build scalable, secure, high performance and smart business networks that are fully manageable and support maximum ...

Gigabit 2 Optical Port 8 Electrical Port Industrial Ethernet Switch (GL-7028G Series) Use high-quality photoelectric integrated modules to provide good optical and electrical characteristics Ensure reliable ...

Provides advanced Security ACLs for improved security, traffic control, and QoS, ensuring efficient and optimized networking.

Link aggregation is used to aggregate multiple physical ports to form a logical port for load balancing, bandwidth expansion, and port protection. Support static link aggregation.

Aggregation switch for small and medium-sized campus networks, with 8 x 1GE/10GE SFP+ uplink ports for high-speed data transmission; 24 x 1GE SFP ports (including 8 x combo ports), providing high ...
