

# Greek quote for 40G active optical module

The 40G ER4 optical module complies with QSFP MSA and RoHS standards. The module uses CWDM technology to achieve 4 channels of electrical data into 4 channels of LAN WDM optical signals.

The QSFP+ ER4 transceivers are high performance, cost effective modules supporting data rate of 40Gbps and 40km transmission distance with SMF.

All interface speeds, from 1G to 400GE have connectivity options that include Direct Attach copper Cables (DACs), Active Optical Cables (AOCs), multi-mode fiber and single-mode fiber transceivers.

Click to get your 40G QSFP+ transceiver modules from nearby warehouses. 30-Day Free Return. Trusted by 260K+ Enterprise Users.

This module can be used for native 40G optical links over 12-fiber ribbon cables with MPO/MTP connectors or in 4x10G mode with parallel-to-duplex fiber breakout cables for connectivity ...

The 40G QSFP+ optical module is a high-performance, low-power optical fiber communication device that supports data transfer rates up to 40Gbps.

Long-range single-mode QSFP+ - Enables reliable 40G transmission up to 10 kilometers over single-mode fiber with LC connectors, suitable for metro and regional networks.

40G QSFP+ optical transceivers available in multimode (100m & 300m) and single mode options (2km, 10km, 40km) and DAC cables, with a Lifetime Warranty.

Wave Thought Tech 40GBASE QSFP+ is a portfolio of optical transceiver modules designed upon Multi-Source Agreement (MSA) of high-density and low-power 40 Gigabit Ethernet connectivity options for ...

Wave Thought Tech 40GBASE QSFP+ is a portfolio of optical ...

QSPTEK offers 40G transceivers with QSFP form factor, enabling customers cost-effective, high-density, and low-power 40G Ethernet connectivity solutions. Portfolio includes 40G QSFP SR4, LR4, ...
