

6-Core FTTH Fiber Distribution Termination Box with 6 SC APC Adapters, IP65 Waterproof, Wall-Mount Enclosure for Residential/Commercial Fiber Optic Splicing & Management (with 6 APC Adapter)

The junction boxes are designed to seal the incoming cables while accommodating varying diameter of fiber cables that might be used in the field. The sealing is accomplished by building up the cable ...

The junction box supports, organizes, and protects optical fibers while ensuring their minimum bending radius is not exceeded. It's rated IP65 and provides entry for all cables, including number tags for ...

The optical fiber desktop box is equipped with dual optical fiber adapter placement holes and pigtail or flexible cord outlet holes, which can realize single-core or dual-core optical fiber access and port output.

This optical fiber Junction Box body with sufficient impact strength is fixed, which is convenient for installation in different applications. It can be installed on the wall or directly placed in the channel.

Riteoptic fiber optic cable joint box provides optical, sealing and mechanical strength of the continuity between adjacent fiber optic cable connection protection device.

This 12 port fiber access terminal box is designed to connect feeder cables to ...

This 12 port fiber access terminal box is designed to connect feeder cables to subscriber drop cables for FTTH last-mile fiber connectivity. It integrates fiber splicing, optical signal splitting, termination and ...

This optical fiber Junction Box body with sufficient impact strength is fixed, which is convenient for installation in different applications. It can be installed on the wall ...

Fiber Cable Joint Box is a device used to provide space and protection for fiber optic cables spliced together. The Fiber Cable Joint Box stores optical fibers safely either in the outside plant or indoor ...

A pre-assembled terminal distribution box is an ideal supporting device for the wiring between optical nodes and terminal equipment in fiber optic transmission networks.
