

IE4320 industrial switch series offer extensive industrial environmental compliance and certifications, and can be widely used in public transport, traffic management, smart building and other extreme ...

The H3C IE4300-6P switch stands out with its industrial-grade design, PoE support, comprehensive management features, and robust performance in harsh environments.

H3C industrial switches can operate in  $-40^{\circ}\text{C}$  -  $75^{\circ}\text{C}$  environments for a long time, and use industrial components to reach IP40 rating. At the same time, with shockproof, anti-electromagnetic ...

The industrial-grade IE4300 switches meet a wide range of industrial standards and are certified for use in mass transit, smart buildings, and other extreme temperature environments.

H3C Industrial Ethernet 4300 switch series is H3C's latest industrial Ethernet switches designed for rugged environment and wide operating temperature.

H3C IE4300 series industrial switches provide redundant power supply and support alarms based on power failure. H3C IE4300 series industrial switches support IEEE Dying Gasp for alarms when a ...

The IE4300 industrial switch series are the latest Ethernet switches developed with industrial compliance and wide operating temperature in mind. All models are built with industrial grade components, with ...

Discover H3C industrial switches with POE, VLAN, and SNMP support for reliable, scalable networking in demanding environments.

Deploy H3C IE4300-12P-PWR for rugged industrial Ethernet with 12x GE PoE and redundant power, optimized for DIN-rail control networks.

H3C extends Power over Ethernet from standard PoE and PoE+ to high-power UPoE/HPoE implementations, combined with multi-gigabit access and flexible fiber or copper uplinks.
