

Leaders in sustainable data centers with reliable infrastructure and compliant operations. Our data centers are located in Iceland and use renewable clean and zero-waste, zero-carbon energy.

Within the IT environment EDP Distribution offers a full range of server and comms enclosures in a range of widths, depths, and heights. As well as working with leading manufacturers EDP offers it's ...

Proven Innovative and Flexible Cabinet Solutions for AI Learn more about our High-Density and AI cabinet and containment solutions. We offer high-load capacity, seamless hardware integration, and ...

Panduit is your single source for complete data center infrastructure power, fiber, cooling, cabinets, pathways, cable cleats, grounding and bonding, and beyond. Instead of managing multiple vendors, ...

Our specialised solutions include high-density customised cabinets along with liquid cooling technology. Our colocation services are scalable, secure and sustainable. With a campus capacity of over ...

High-airflow server racks designed for Icelandic data centers, enabling free-air cooling, higher density deployment, and low-PUE performance in cold-climate environments.

With advanced airflow, integrated cable management, and enhanced security features, the H1 supports high-density deployments and mission-critical infrastructure requiring reliability and flexibility.

High-density, front-access modular fiber connectivity for hyperscale data centers. Discover the Denali platform from AFL -- flexible housings, customizable cassettes, and plug-and-play scalability from ...

Our unique cable and connectivity expertise is central to the design of this feature-rich Rack & Cabinet system, which offers ease of installation, easy MACs and high levels of scalability. There are data ...

The Keflavík halls are configured for high-density cabinet layouts designed to support NVIDIA Hopper and Blackwell-class systems. These systems carry elevated per-rack power ...
