

Cylindrical Press Fit Connectors with Compliant Pins mounting on printed circuit boards. Compliant pins engage the plated through holes in the PC board without the need for soldering which provides for ...

CDI manufactures MIL-SPEC connector into a PC board mount component by custom designing a PC Tail contact for specific applications and built to print. We offer kitting for board mount components ...

Is it possible to obtain connectors with custom tail lengths? Yes, many manufacturers offer custom tail lengths to accommodate non-standard PCB thicknesses or specific design needs.

We have designed and manufactured thousands of Printed Circuit Tail Contacts for all major connector families. Whether you choose from one of our existing styles or we build to your exact specifications, ...

Find PCB (PC tail) contacts for D38999 Series III connectors, including D38999/20 and D38999/24 types. Contacts can be terminated to flex cable or PC boards.

High reliability is assured with factory pre-assembled contacts and standardization termination to the board. PC Tail contacts are available for MIL-DTL-38999 Series I and III circular connectors and also ...

D38999 Connector with PC Tail Coax Contacts, Sealing Plugs in unused contact cavities and PC Tail Alignment Disc

For optimal performance, see Glenair Application Note AN0002.

These devices simplify cable-to-board wiring through their pre-assembled design and are available in tail lengths of 0.15, 0.25, and 0.35 inches. The PC tail contacts support gold-plated and pre-tinned ...

Air Electro combines expertise in mil-spec I/O connectors and decades of experience designing and building custom PC tail contacts to provide turnkey PC tail connector solutions.
