

Huawei Communication Network Rack Setup Method

Step 1 Attach four rubber pads in the imprinted round areas marked plus (+) signs at the bottom of the router.

Step 2 Gently place the router on the desk.

Improper rack configuration will unbalance loads (including CPU, memory, disk, and network) among nodes in the cluster, which decreases the cluster reliability and stability. Therefore, before allocating ...

Attach the brackets of the horizontal rack-mounting kit on the front mounting rails of the cabinet and insert M6 screws in the mounting holes. Use a Phillips screwdriver to tighten the lower M6 screws ...

Use an insulated flat-head screwdriver to insert floating nuts into the device mounting holes in the rack rails of the network cabinet. Ensure that the floating nuts on both sides are on the same horizontal line.

Step 1 When a BBU is installed in an OMB or an indoor centralized rack (ICR), perform the following operations to reinstall the BBU mounting ears in standard mode.

Before the installation, pay attention to the following items: The customer's technical engineers must be trained by Huawei and be familiar with the proper installation and operation methods.

Rack Server: Access product manuals, HedEx documents, product images and visio stencils.

When mounting the device in a cabinet or rack using mounting brackets, ensure that the mounting brackets are aligned horizontally on the left and right mounting rails. If the mounting brackets are not ...
