

Discover Huawei Layer 3 switches with POE, VLAN support, and 10/100/1000Mbps speeds. CE certified, stackable, ideal for enterprise networks.

Huawei Quidway S5328C-EI (LS-S5328C-EI) is a 24-port 10/100/1000Base-T Layer 3 Ethernet switch with flexible uplink options, designed for high-performance enterprise networks.

eKitEngine S310 series switches support strict ARP entry learning, which prevents ARP spoofing from exhausting ARP entries and ensures Internet access of authorized users.

With its extensive port options, advanced Layer 3 routing, intelligent stacking, and robust security, it is an ideal choice for businesses, data centers, and ISPs seeking a scalable, secure, and efficient ...

The S6720-HI series switches (S6720-HI) are fixed IDN-ready switches with 10GE downlink and 40GE/100GE uplink ports, and are applicable to enterprise campus, carrier, university, and ...

* Integrates 48 Gigabit Ethernet ports (supporting PoE++, delivering up to 60W per port) and 4 Gigabit SFP uplink slots in a single compact unit. * Offers robust Layer 3 switching performance with ...

The S3700 series enterprise switches (S3700s) are next-generation energy-saving Layer 3 switches. The S3700 utilizes cutting-edge hardware and Huawei Versatile Routing Platform (VRP) software to ...

The switch has a high switching capacity, likely higher than the 24-port models" 52 Gbps, enabling better data traffic handling. It supports Layer 2 and Layer 3 features, such as VLANs for network ...

eKitEngine S530 series switches have two dedicated stack ports, which do not occupy service port bandwidth or require additional stack cards, making them suitable for multiple scenarios.

Huawei CloudEngine Swtich S6730-H24X6C (02353FSG/-001/-005/-007) Huawei ...

Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education, manufacturing, and public services. And with solutions rated as Challenger and Visionary ...
