

Huawei's OSX040N01 is a high-performance SFP+ module designed for 10G Ethernet applications. With a single-mode, 1550nm wavelength and a transmission distance of 40km, this module provides ...

Huawei offers a comprehensive portfolio of pluggable StarryLink optical modules for data center networks, with various models providing flexible plug-and-play solutions tailored to diverse interface ...

Huawei SFP-GE-LX-SM1310 1GE 1310nm 10km single-mode SFP module for Huawei switches and routers. Check real-time price, stock and lead time. Global Shipping & Tech Support.

The 10G SFP+ 80km 1470~1610nm LC CWDM Module optic Transceiver is a 10Gbps enhanced small form factor pluggable SFP+ transceiver compatible with 10GBASE- CWDM /10GFC.

This Huawei-compatible SFP transceiver provides 1000Base-BX throughput up to 10km over single-mode fiber (SMF) using a wavelength of 1310nmTx/1490nmRx via an LC connector.

Huawei Data Center Switch Optical Transceiver Portfolio QSFP28 MPO12 Connector Model

Experience enhanced network connectivity and improved data transmission with this advanced optical transceiver. Its compact design and durable construction make it ideal for various networking ...

The Huawei Optical Transceiver SFP-10G-LR is a versatile and high-performance 10G SFP+ module. Designed for single-mode fiber, it offers reliable 10km transmission at 1310nm.

The 10G SFP+ 80km 1470~1610nm LC CWDM Module optic Transceiver is a ...

Multi-mode optical modules are applicable to short-distance transmission, while single-mode optical modules are applicable to long-distance transmission. Single-mode optical modules will be widely ...

The Huawei Optical Transceiver SFP-10G-LR is a versatile and high-performance ...

The Optical Transceiver eSFP 1310nm is a powerful communication module designed for data transmission over single-mode fibers. With a wavelength of 1310 nanometers, this module enables a ...
