

The Upper Panel of the switch indicates an AC/DC inlet power socket and consists of one terminal block connector within 6 contacts. Please follow the steps below to insert the power wire.

Each IES sits at the machine, line or zone level and provides connectivity for all the switches below it in the hierarchy. Controller and I/O devices can be located at multiple layers and still communicate ...

The Network Switch is designed to sit on a flat surface, or be securely mounted to either a wall or DIN-Rail using the included brackets. Please follow the instructions below, depending on your preferred ...

Thank you for choosing IES3110 Series industrial PoE+ Switch. This guide is designed to familiarize you with the layout of the switch and describes how to deploy the switch in your network.

If the DIN-Rail is not screwed on the industrial switch, please see the following pictures to screw the DIN-Rail on the switch. Follow the steps below to hang the industrial switch.

DIN rail mountable using standard 35mm DIN rail and require 24V DC power for operation. The IES series is perfect for designing and building new industrial IP networks or adding to existing Industrial ...

All switches in this series are DIN rail mountable using standard 35mm DIN rail and require 24V DC power for operation. The IES series is perfect for designing and building new industrial IP networks ...

Connect your uplink (connection to an upstream network switch) to the Uplink Port, followed by connecting your network devices to the remaining RJ45 ports using RJ45 terminated Ethernet ...

The IES5100 5 Port Unmanaged Industrial Ethernet Switch (DIN-Rail Mountable) offers five 10/100 Ethernet switching ports and is designed to operate in harsh environments, making it an ideal ...

Installation IES-150B is unmanaged Ethernet switch with 5x10/100Base-T(X) ports With very compact size of housing, you can install IES-150B easily . In addition, IES-150B is with rigid IP-30 housing ...

CTS IES-3005-F1 provides 5 Gigabit Ethernet ports to fulfill the needs of the rapid growth of communication traffic of Industrial network. To make the network truly plug-and-play, they are ...
