

Industrial switch manufacturers can't grow big

Economies like India and China are projected to be the largest industrial ethernet switch market as the industries are investing heavily in the automation process and many multinational companies such ...

Siemens provides industrial-grade Ethernet switches known for their reliability and performance in harsh environments, especially in manufacturing and energy sectors.

The Switches Market is evolving rapidly as industries shift toward compact, intelligent, and high-performance switching components. Mechanical switches still dominate with nearly 43% ...

Growing investment in renewable energy, advances in technology, increase in raw material prices and project backlog are also fueling switchgear price rise. Producer Price Index for ...

The United States Switchgear Market worth USD 18.12 billion in 2026 is growing at a CAGR of 4.69% to reach USD 22.79 billion by 2031. ABB Ltd., Siemens AG, General Electric ...

The Industrial Ethernet Switches research explores the current and future market performance and related technology and business trends and identifies leading technology suppliers.

As industries worldwide increasingly embrace automation and smart technologies, the demand for advanced industrial switches is expected to surge, reflecting a compound annual growth rate ...

Based on Future Market Insights" analysis, demand for switchgear is estimated to grow to USD 5.7 billion in 2026 and USD 9.4 billion by 2036. FMI projects a CAGR of 5.1% during the ...

At an estimated 18 percent, the market for connectivity and industrial IoT (IIoT) will grow faster than any other part of the industrial automation market. This is the key source of revenues for hyperscalers ...

The US Industrial Ethernet Switch Market is projected to grow at a 6.82% CAGR from 2025 to 2035, driven by automation, IoT integration, and demand for reliable connectivity.
