

# Intelligent Latitude and Longitude Light Controller Module

Upgrade your smart home with our RS485 light controller module, featuring intelligent time control and geo-location adaptability for versatile lighting solutions.

Automate your street lighting with the Hongguan SDK-7 Astronomical Timer Switch. This intelligent module controls lights based on latitude, longitude, and time, offering reliable and energy-efficient ...

4-Circuit 16A/20A/50A Latitude and Longitude Intelligent Lighting Module for Intelligent Lighting Control System

Intelligent Lighting Control Module, Latitude and Longitude Time Control and Light Control Module, Street Light Control Module, Relay Output Module Album Variations

The HHQ16 Series Latitude/Longitude Street Light Controller automatically adjusts on/off times based on location and season. Features solid-state outputs for reliable control.

The JHZK-A0616 6-way 16A intelligent lighting control module offers 6 independent circuits, allowing for customized lighting control and management for various applications.

4-channel intelligent time-controlled lighting module 6-way intelligent time-controlled lighting module 8-way intelligent time-controlled lighting module 10-way intelligent time-controlled lighting module 12 ...

The LightLEEDer Pro software provides Windows-based software that simplifies programming of stand-alone or networked LightLEEDer systems. Simply connect directly using a USB cable or through a ...

It can be widely used in streets, railroads, stations, waterways, mines, schools and power supply departments. The controller meets the requirements of GB/T 14536.8.

The present invention discloses an intelligent longitude and latitude time control light-operated switch, comprising a lower shell, an upper shell, a power supply module, wiring ports,...
