

The GYXTW optical fiber cable utilizes a central tube design that holds the fibers securely in a water-blocking loose tube and is easy to manage and handle. The ...

It is a large-scale and technologically mature optical cable factory in Northeast China. Since the establishment of the company, we have always adhered to the core concepts of "innovation, quality, ...

Self-supporting cables use special hardware to handle the installed tension on the cables caused by the weight of the cables and environmental factors like wind. GYXTW single-armored cables feature ...

The optical fiber is made of high pure silica and germanium doped silica. UV curable acrylate material is applied over fiber cladding as optical fiber primary protective ...

In addition, LSZH flame-retardant outer sheath is UV resistant and highly resistant to chemicals commonly found in industrial environments, and is also suitable for indoor and outdoor industrial ...

Experience the benefits of a cable that combines exceptional performance, durability, and ease of installation, providing you with a reliable solution for your networking needs.

Q: Is the cable flame retardant and UV-resistant? A: Yes, it features a flame-retardant, UV-resistant polyethylene sheath for fire safety and protection from sun exposure.

The cable's robust structure and flame-retardant properties make it suitable for direct burial, particularly in areas with fire risk or stringent safety requirements.

The optical fiber is made of high pure silica and germanium doped silica. UV curable acrylate material is applied over fiber cladding as optical fiber primary protective coating.

The GYXTW optical fiber cable utilizes a central tube design that holds the fibers securely in a water-blocking loose tube and is easy to manage and handle. The metal clad means the fiber optic cable ...

The tube is wrapped with a layer of PSP longitudinally. Between the PSP and the loose tube water-blocking material is applied to keep the cable compact and watertight. Two parallel steel wires are ...
