Italian DAC high-speed cable 1 6T

NADDOD"s 1.6T OSFP224 DAC cables offer lightning-fast data transfer speeds, high bandwidth, and low latency, providing reliable and efficient solutions for your high-performance computing needs.

Cost-effective 1.6T OSFP224 cables with low power and low latency. Ideal for short-distance InfiniBand connections.

1.6T OSFP passive copper cable assembly feature sixteen differential copper pairs, providing eight data transmission channels at speeds up to 200Gbps per channel, and meets 1.6T ...

Lumulus Technologies has developed an innovative 1.6T DAC cable, designed to deliver exceptional performance in high-speed connections. The exponential growth of AI models has ...

The PHILISUN 1.6T OSFP (FIN) to OSFP (FIN) is a new-generation 8-channel high-speed cable supporting 1600 Gbps, optimized for 224 Gbps PAM4 and compliant with IEEE 802.3 standards ...

1.6T direct-attached copper cables provide up to 1600Gbps aggregate throughput and can be applied in liquid cooling environments. Integrated with a heat sink and airflow channels, enhancing the cooling ...

These 1.6T DAC cables deliver ultra-low latency and power-efficient connectivity between OSFP224 ports. They are primarily used for direct interconnection between 1.6T OSFP switches or ConnectX-8 ...

Provide excellent mechanical durability and shielding, reduce crosstalk, transmission distance up to 1 meters Compliant with hot-pluggable OSFP MSA standard Operating temperature: 0°C-70°c Product ...

As next-gen data centers deploy faster speed in a tighter space, they need high performance cables that reduce power consumption, provide reliable operation and are low cost. Volex"s 1.6T OSFP-XD cable ...

Offers 1.6Tbps aggregate data rates at 224Gbps lane speeds to support high-density data center applications. Meets IEEE standard signal performance requirements.

Italian DAC high-speed cable 1 6T
