

LINK-PP provides a comprehensive selection of high-speed DAC (Direct Attach Copper), AOC (Active Optical Cable), and AEC (Active Electrical Cable) interconnects for top-of-rack (ToR) and rack-to ...

Philisun team helps you select the most suitable AOC and DAC high speed cables for data centers, HPC, and AI deployments, delivering reliable performance, broad compatibility, and scalable ...

Volza's Laos import data of Dac C,cable is sourced and compiled from Global import export shipments across 80+ countries. Our datasets are updated daily, and paid subscribers gain ...

Our direct attach cable solutions, including QSFP28, ensure low loss & high-speed data for demanding data centers.

Compared to optical fiber and cable components, SFP+ direct copper cables provide a cost-effective solution for short-distance data center interconnection applications.

FS DAC, AOC and AEC cables are most used in data centers and enterprise networks for switches, servers, and storage interconnects within a rack. With high ...

ACC cables are high-speed, cost-effective cables with active amplification that support high-speed connections over longer distances than DACs which are perfect for low-latency environments.

Our DAC (Direct Attach Cables) and AOC (Active Optical Cables) provide high-speed, low-latency connections for data centers, enterprise networks, and storage applications.

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.
